## MESSAGE

### SHRI CONRAD K. SANGMA

*Chief Minister, Meghalaya*

I am pleased to note the release of the Meghalaya School Performance Grading Index (MSPGI), a significant step forward in our collective effort to strengthen school education across the State. Education has always been at the heart of our vision for Meghalaya — a vision where every child has access to quality learning that opens doors to opportunity.

Over the past several years, my government has undertaken sweeping reforms in the education sector, from the introduction of the Structured Pay Framework for teachers to the rationalization of schools, the CM IMPACT programme, and infrastructure development under Mission Education. These efforts have already begun to show results, and it is my firm belief that data-driven tools like the MSPGI will help us build on this momentum with greater precision and purpose.

The MSPGI is designed to give us an honest, granular picture of how our schools and districts are performing — not to rank or penalize, but to inform, guide, and empower. By identifying strengths to celebrate and gaps to address, this Index will help administrators, educators, and communities work together more effectively toward common goals.

I would like to commend the Education Department, our teachers, headteachers, and all education functionaries who have contributed to this exercise. I also urge every stakeholder — from block-level officials to School Management Committees — to use these insights constructively, in the true spirit of collaborative governance.

Meghalaya's future depends on the strength of its education system today. I am confident that the MSPGI will serve as a valuable compass as we work together to ensure that every child in our State receives the quality education they deserve.

*Sd/-*

**Conrad K. Sangma**

*Chief Minister, Meghalaya*

## MESSAGE

### SHRI LAHKMEN RYMBUI

*Minister, Education Department  
Government of Meghalaya*

It gives me great satisfaction to present the Meghalaya School Performance Grading Index (MSPGI) — a comprehensive and data-driven assessment framework designed to capture the true state of school education in our districts and blocks.

Over the last several years, the Education Department has worked tirelessly to strengthen the foundations of our school system, whether through the Structured Pay Framework for teachers, the consolidation and rationalization of schools, capacity-building through the Meghalaya Teacher Training Academy, or the steady improvement in our performance on the Union Government's Performance Grading Index. These efforts reflect a shared commitment among officers, teachers, and administrators to move education in Meghalaya forward, one step at a time.

The MSPGI takes this commitment further by bringing the assessment closer home. By evaluating performance at the district and block level across key domains, it allows us to see clearly where we are succeeding and where greater attention is needed. This granularity is essential — improvement in education cannot be driven by broad State-level averages alone; it must be rooted in the specific realities of each district, each block, and ultimately, each school.

I urge district and block-level education officers, headteachers, and School Management Committees to engage closely with the findings of this Index, using it not as a scorecard but as a working tool for planning and improvement. Quality education is our core mission, and every insight this Index offers should be put to use in service of that goal.

I place on record my appreciation for the officers of the Education Department and all partners who have contributed to the preparation of this Index, and I look forward to its continued use as we work towards giving every child in Meghalaya the quality education they deserve.

*Sd/-*

**Lahkmen Rymbui**

*Minister, Education Department  
Government of Meghalaya*

## MESSAGE

### SHRI VIJAY KUMAR MANTRI, IAS

*Commissioner & Secretary to the Government of Meghalaya  
Education Department*

The Meghalaya School Performance Grading Index (MSPGI) marks an important milestone in the Education Department's ongoing effort to build a robust, transparent, and data-driven system of monitoring school education across the State.

Modelled to reflect Meghalaya's unique administrative and geographic realities, the MSPGI has been developed to assess performance at the district and block level across critical domains such as learning outcomes, access, infrastructure, equity, and governance. Unlike a static report, it is intended to function as a living diagnostic tool — one that officials at every level of the system can use to identify specific areas requiring intervention and to track progress over time.

This exercise has been made possible through close coordination among the Directorates of School Education & Literacy and SEMAM, along with District and Block Education Officers, headteachers, and field functionaries who ensured the timely and accurate collection of data. I extend my sincere appreciation to all of them for their diligence and cooperation.

It is my hope that the MSPGI will be used purposefully by administrators and educators alike — not merely as a compliance exercise, but as an evidence base for planning, resource allocation, and targeted capacity-building. As we continue to implement reforms such as the Structured Pay Framework, school rationalization, and infrastructure upgradation, this Index will help ensure that our efforts remain focused where they are needed most.

I look forward to the continued collaboration of all stakeholders in taking forward the objectives of this Index, in service of the larger goal of quality education for every child in Meghalaya.

*Sd/-*

**Vijay Kumar Mantri, IAS**

*Commissioner & Secretary to the Government of Meghalaya  
Education Department*

## PREFACE

**A common school-level reference for understanding institutional readiness and supporting continuous improvement.**

The Meghalaya School Performance Grading Index (MSPGI) 2025-26 represents a State-wide effort to present school-level information through a common, transparent and easily interpretable framework. Drawing on certified UDISE+ 2025-26 data, the report brings together key indicators relating to accessibility, digital education, infrastructure facilities, selected National Education Policy activities and quality-related enabling conditions.

The value of the MSPGI lies not only in the score or grade assigned to a school, but also in the common language it creates for understanding institutional strengths and areas that may require attention. The framework is intended to support constructive discussion among school heads, teachers, School Management Committees, Block and District authorities and State-level planners.

This publication preserves the approved MSPGI methodology, indicators, weightages, scores, grades and rankings. The additional explanatory material and visual presentation are intended to make the report easier to read and use, while retaining the authenticity of the underlying assessment.

The MSPGI is envisaged as an annual reference for continuous improvement. Read alongside school inspections, academic reviews and other educational assessments, it can support evidence-based planning and help direct attention towards the conditions required for safe, inclusive and effective schooling across Meghalaya.

## EXECUTIVE SUMMARY

### Purpose

The Meghalaya School Performance Grading Index (MSPGI) 2025-26, also referred to as the Meghalaya School Report Card, provides a transparent and data-driven framework for assessing individual schools across the State. It has been developed from authenticated UDISE+ 2025-26 data and evaluates the extent to which schools meet the approved institutional indicators contained in this report.

### Coverage and framework

The report covers all 11,443 recognized schools across the 12 Districts of Meghalaya. Each school is assessed across five domains and 43 weighted indicators, with a maximum composite score of 1,000 points. The approved grading framework assigns one of 17 performance grades, ranging from Utkarsh to Akanshi-10.

### Outputs

The assessment generates an overall score, performance grade and ranking information for each school, together with an individual School Report Card. The publication also presents the State's PGI performance, the MSPGI methodology and indicator framework, State and management-wise top-school lists, District-wise top and bottom school lists and the complete District-wise school register.

### Improvement orientation

The principal purpose of the MSPGI is not merely to rank schools. It is intended to help schools and administrators understand institutional strengths, identify areas that require attention, support prioritisation and monitor progress through a common framework.

### How the report may be used

School heads and teachers may use the Report Card for internal review; SMCs may use it as a reference for discussion; Block and District authorities may use it to identify areas requiring facilitation or convergence; and the State may use the consolidated results as one of the inputs for planning and monitoring. The MSPGI complements, rather than replaces, academic inspection, classroom observation and other educational assessments.

#### Interpretation

The MSPGI score should be read as the school's position against the approved institutional indicators for the reference year. It is designed to complement other academic, inspection and school-improvement processes.

## HOW TO USE THIS REPORT

The report has been designed for different readers. The guidance below explains the most practical way in which each stakeholder group may use it.

| Reader                                | Suggested use                                                                                                                                                                                                                                        |
|---------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>School heads and teachers</b>      | Review the school's score, grade, domain profile and applicable indicator status; identify matters that can be addressed at school level; and use the Report Card as a reference during staff and SMC discussions.                                   |
| <b>School Management Committees</b>   | Use the Report Card to support structured discussion on school access, infrastructure, inclusion, student services, safety and institutional development.                                                                                            |
| <b>Block and District authorities</b> | Use the results to inform school visits, facilitate support, identify matters requiring administrative action and coordinate convergence where school-level action alone may not be sufficient.                                                      |
| <b>State-level planners</b>           | Use the consolidated results as one of the evidence inputs for planning, monitoring, prioritisation and review of relevant educational interventions.                                                                                                |
| <b>Parents and the public</b>         | Read the score in relation to the 43 approved MSPGI indicators and the reference-year UDISE+ data. The score is an institutional profile under this framework and should not be treated as a stand-alone measure of children's learning achievement. |

### Responsible use of ranking information

Ranking provides a simple reference for relative position under the approved MSPGI framework. The report's stated objective remains continuous improvement, targeted support and evidence-based planning rather than competition alone.

## ABBREVIATIONS

The following abbreviations are used in the report. Punctuation and capitalization have been standardized for readability.

| Abbr.            | Full Form                                                  | Abbr.          | Full Form                                                    |

# 1. Introduction to the Performance Grading Index (PGI)

## 1.1 Background

Quality school education is central to social development, individual opportunity and the long-term progress of communities. As access to schooling expands, education systems also require reliable ways of understanding whether the conditions needed for safe, inclusive and effective learning are being put in place.

The Ministry of Education, Government of India introduced the Performance Grading Index (PGI) as a structured framework for assessing the performance of States and Union Territories in school education. By bringing together multiple domains and indicators, the PGI supports systematic review, benchmarking and evidence-based planning.

The framework encourages educational governance to move beyond the monitoring of isolated inputs and towards a broader understanding of outcomes, access, equity, infrastructure, governance and teacher-related dimensions.

## 1.2 What is the Performance Grading Index (PGI)?

The Performance Grading Index is a composite assessment framework developed by the Ministry of Education to evaluate the performance of States and Union Territories on key dimensions of school education.

Rather than relying on a single measure, the PGI combines a range of indicators into a unified scoring and grading system. This enables States and Union Territories to understand their overall position, identify areas requiring attention and monitor progress across assessment cycles.

## 1.3 Evolution and Importance of PGI

Since its introduction, the PGI has been periodically refined to reflect emerging priorities in school education and improvements in the availability and quality of administrative data.

The policy environment following the National Education Policy 2020 has placed greater emphasis on foundational learning, inclusion, digital education, governance, teacher development and the overall quality of the school environment. The PGI provides a common reference through which progress across such areas can be reviewed.

By presenting performance through clearly defined indicators and grades, the PGI supports transparency, comparison, focused planning and the sharing of practices across education systems.

**Key benefits include:**

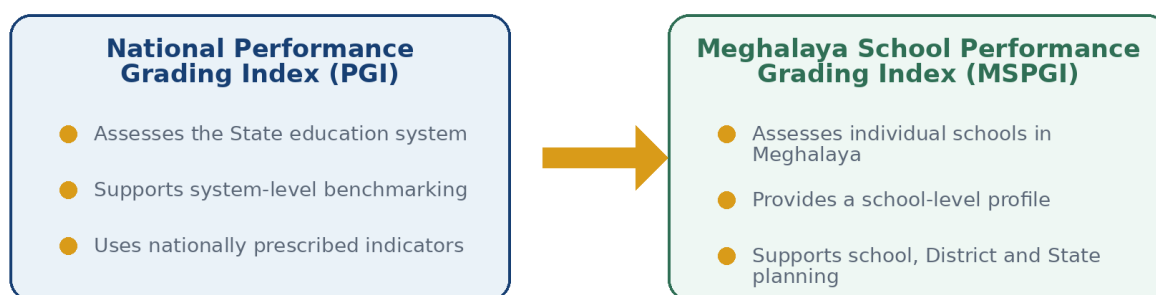

- ❖ Promotes accountability through measurable performance indicators.
- ❖ Supports evidence-informed allocation of financial and human resources.
- ❖ Enables continuous monitoring of educational reforms.
- ❖ Encourages innovation and the sharing of effective practices.
- ❖ Improves transparency in educational governance.

### 1.4 Meghalaya's Journey towards School-Level Performance Assessment

The national PGI provides a State and Union Territory-level view of school education. Meghalaya developed the MSPGI to extend the principle of structured, indicator-based assessment to individual schools using a common framework and the UDISE+ data available for the reference year.

The MSPGI therefore complements the national PGI by translating broad system priorities into a school-level institutional profile. It gives schools and administrators a common reference for understanding performance and considering areas that may require attention.

#### PGI and MSPGI: Two Related Levels of Assessment

| Aspect              | National PGI                                  | Meghalaya MSPGI                                   |
|---------------------|-----------------------------------------------|---------------------------------------------------|
| Level of assessment | State/Union Territory education system        | Individual schools in Meghalaya                   |
| Primary purpose     | System-level benchmarking and planning        | School-level institutional profiling and planning |
| Framework           | Nationally prescribed domains and indicators  | Five approved State domains and 43 indicators     |
| Use                 | State-level policy, monitoring and comparison | School, District and State planning and review    |

## 1.5 Objectives of PGI

GOVERNMENT OF MEGHALAYA  
DEPARTMENT OF EDUCATION

# Objectives of the Meghalaya School Performance Grading Index (MSPGI)

*Using UDISE+ 2025–26 data to support school assessment,  
planning and continuous improvement*

01

Assess the fulfilment of the approved school-level indicators using UDISE+ 2025–26 data.

02

Generate a standardised School Report Card for every school in Meghalaya.

03

Assign a performance score and grade to each school.

04

Rank all 11,443 schools on the basis of the approved composite score.

05

Encourage schools to work progressively towards the prescribed institutional standards.

06

Support District and State-level planning, monitoring and resource prioritisation.

07

Promote continuous improvement and accountability through a common assessment framework.

## 2. Performance of Meghalaya in Performance Grading Index (PGI) 2025-26

### 2.1 Introduction

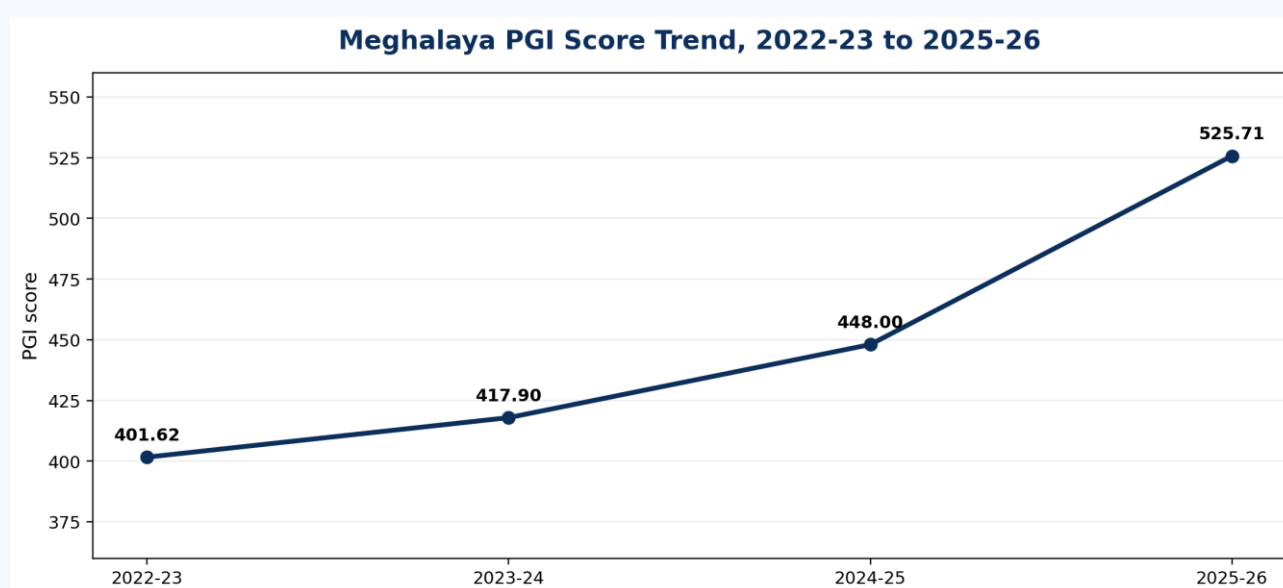

The Performance Grading Index developed by the Ministry of Education provides a national reference for reviewing the performance of States and Union Territories across multiple dimensions of school education, including learning, access, infrastructure, equity, governance and teacher-related parameters.

Meghalaya has undertaken reforms aimed at strengthening infrastructure, access, governance, data quality, digital learning and the implementation of national and State initiatives. The PGI provides a consolidated view through which the progress reported under these areas can be considered.

### 2.2 Meghalaya's Performance in PGI 2025-26

The PGI 2025-26 marks the highest score reported for Meghalaya in the assessment series presented in this publication. The State recorded 525.71 points and moved from Akanshi-3 in 2024-25 to Akanshi-1 in 2025-26, an improvement of two grading levels within a single cycle. The report notes that this is the first time Meghalaya has moved out of the lowest performance category under PGI 2.0.

Across the four assessment cycles reproduced below, the score increased from 401.62 in 2022-23 to 525.71 in 2025-26. This represents an increase of 124.09 points, equivalent to nearly 31 per cent over the period as stated in the source report. The increase recorded in 2025-26 was 77.71 points.

Source: PGI scores and annual figures as presented in the source report.

Table 2.1. Trend of PGI performance

| Academic Year | PGI Score | Annual Increase | Growth (%) |
|---------------|-----------|-----------------|------------|
| 2022–23       | 401.62    | –               | –          |
| 2023–24       | 417.90    | +16.28          | 4.1%       |
| 2024–25       | 448.00    | +30.10          | 7.2%       |
| 2025–26       | 525.71    | +77.71          | 17.3%      |

## 2.3 Areas Associated with the Reported Improvement

The source report identifies the following areas as contributing to the improvement recorded during the period:

- ❖ Rationalization and clustering of schools to improve efficiency in resource utilization and service delivery.
- ❖ Strengthening of school infrastructure through Samagra Shiksha, Mission Education and externally aided projects.
- ❖ Improved quality and accuracy of educational data through UDISE+ validation and monitoring.
- ❖ Enhanced governance and planning supported by digital monitoring systems and evidence-based decision-making.
- ❖ Capacity building of teachers and school leaders through continuous professional development programmes.
- ❖ Focused implementation of flagship initiatives such as PM SHRI Schools, CM IMPACT, APAAR, Vidyanjali and technology-enabled monitoring systems.

The report further states that gains were recorded across several PGI indicators, reflecting attention to governance, infrastructure, access, equity and quality-related areas rather than to a single parameter alone.

### 3. Meghalaya School Performance Grading Index (MSPGI)

#### 3.1 Background and Purpose

The Government of Meghalaya developed the MSPGI as a school-level assessment framework based on authenticated UDISE+ 2025-26 data. Inspired by the national PGI, it translates selected State-level priorities into measurable school-level indicators relating to accessibility, digital education, infrastructure facilities, NEP activities and quality parameters.

Every school included in the assessment receives a performance score, grade and ranking information, together with an individual School Report Card. This provides a uniform and transparent basis for understanding the school's position under the approved framework.

#### 3.2 Objectives

- ❖ Assess the fulfilment of the approved school-level indicators using UDISE+ 2025-26 data.
- ❖ Generate a standardized School Report Card for every school in Meghalaya.
- ❖ Assign a performance score and grade to each school.
- ❖ Rank all 11,443 schools on the basis of the approved composite score.
- ❖ Encourage schools to work progressively towards the prescribed institutional standards.
- ❖ Support District and State-level planning, monitoring and resource prioritization.
- ❖ Promote continuous improvement and accountability through a common assessment framework.

#### 3.3 Scope and Interpretation of MSPGI

The MSPGI is principally an institutional-readiness and enabling-conditions index. It brings together information on:

- ❖ institutional accessibility and continuity of school stages;
- ❖ digital readiness and the pedagogical use of technology;
- ❖ availability and functionality of infrastructure and school facilities;
- ❖ implementation of selected NEP-aligned activities; and
- ❖ teacher, leadership and other quality-related enabling conditions.

The composite score should therefore be interpreted in relation to these approved indicators and the reference-year data. It complements other processes that examine teaching-learning practice, classroom experience and student outcomes.

### What the MSPGI score means

The score indicates the extent to which a school meets the approved MSPGI indicators applicable to its category. It is not intended to be read as a stand-alone measure of the learning achievement of children.

## 3.4 Assessment Framework

The MSPGI evaluates schools across five domains covering 43 indicators. The approved weights add up to a maximum composite score of 1,000 points.

| Sl. No | Domain                    | Total Parameters | Total Weight |
|--------|---------------------------|------------------|--------------|
| 1      | Accessibility             | 6                | 117          |
| 2      | Digital Education         | 3                | 60           |
| 3      | Infrastructure facilities | 22               | 523          |
| 4      | NEP activities            | 8                | 186          |
| 5      | Quality parameters        | 4                | 114          |
|        |                           | <b>43</b>        | <b>1000</b>  |

### MSPGI Assessment Framework

Five domains, 43 indicators and a maximum composite score of 1,000 points

| Accessibility          | Digital Education      | Infrastructure Facilities | NEP Activities         | Quality Parameters     |
|------------------------|------------------------|---------------------------|------------------------|------------------------|
| 6 indicators           | 3 indicators           | 22 indicators             | 8 indicators           | 4 indicators           |
| <b>117 points</b>      | <b>60 points</b>       | <b>523 points</b>         | <b>186 points</b>      | <b>114 points</b>      |
| Approved domain weight | Approved domain weight | Approved domain weight    | Approved domain weight | Approved domain weight |

Each indicator carries a predefined weight. Where an indicator is not applicable to a particular school category, the report states that its weight is proportionately redistributed among the applicable indicators to support fairness in scoring.

## 3.5 Methodology at a Glance

The School Report Card is generated from the UDISE+ 2025-26 database filled, finalized and certified by schools. Marks are awarded according to the approved scoring approach and aggregated to generate the overall score, grade and ranking information.

### Methodology at a Glance

## 3.6 Performance Grading Framework

The approved 17-level grading framework classifies schools according to their total weighted score out of 1,000 points. It recognizes higher levels of fulfilment while also identifying schools that may require different degrees of attention and support.

| Grade       | Performance Level | Score Range |
|-------------|-------------------|-------------|
| Utkarsh     | Outstanding       | 941–1000    |
| Uttam-1     | Excellent         | 881–940     |
| Uttam-2     | Very Good         | 821–880     |
| Uttam-3     | Good              | 761–820     |
| Prachesta-1 | Above Average     | 701–760     |
| Prachesta-2 | Satisfactory      | 641–700     |
| Prachesta-3 | Needs Improvement | 581–640     |
| Akanshi-1   | Emerging          | 521–580     |
| Akanshi-2   | Emerging          | 461–520     |
| Akanshi-3   | Emerging          | 401–460     |
| Akanshi-4   | Developing        | 341–400     |
| Akanshi-5   | Developing        | 281–340     |
| Akanshi-6   | Developing        | 221–280     |
| Akanshi-7   | Foundational      | 161–220     |
| Akanshi-8   | Foundational      | 101–160     |
| Akanshi-9   | Priority Support  | 41–100      |
| Akanshi-10  | Intensive Support | 0–40        |

Schools obtaining higher grades demonstrate greater fulfilment of the prescribed indicators. The report emphasises that the primary objective is school improvement rather than competition alone.

### 3.7 Scoring Methodology

**For binary indicators:** Yes = full weightage; No = zero.

**For percentage indicators:** Marks are awarded proportionately according to the percentage status reported for the indicator.

Where an indicator is not applicable to a school category, its weight is proportionately redistributed among the remaining applicable indicators, as stated in the approved methodology.

### 3.8 Understanding Scores, Grades and Rankings

| Term             | How to read it                                                                                                                         |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Score            | The weighted total obtained by the school against the applicable MSPGI indicators, normalized to the approved maximum of 1,000 points. |
| Grade            | The performance band corresponding to the final score range in the approved grading framework.                                         |
| Rank             | The relative position presented in the report on the basis of the approved score and ranking output.                                   |
| Domain score     | The contribution made by each of the five domains to the overall institutional profile.                                                |
| Indicator status | The school's reported position against each applicable indicator and its approved weightage.                                           |

### 3.9 Key Features and Expected Outcomes

- ❖ Based on authenticated UDISE+ 2025-26 data as reported and certified by schools.
- ❖ Covers all 11,443 schools included in the assessment.
- ❖ Uses an approved set of 43 indicators across five domains.
- ❖ Applies a uniform, data-driven and transparent assessment approach.
- ❖ Generates school scores, grades, ranking information and individual Report Cards.
- ❖ Supports planning, monitoring and the identification of areas requiring attention.

#### Expected outcomes

- ❖ Establish a shared reference for continuous school improvement.
- ❖ Motivate schools to work towards higher standards across the approved indicators.
- ❖ Enable District authorities to identify schools and areas requiring facilitation or support.

- ❖ Support evidence-based planning and investment decisions.
- ❖ Improve accountability through measurable institutional indicators.
- ❖ Contribute to the objectives of NEP 2020 and the wider vision of equitable access to quality education.
- ❖ Enable higher-performing schools to serve as reference institutions for peer learning.

### 3.10 Assessment-to-Improvement Pathway

The Report Card may be used as the starting point for a simple improvement cycle: understand the results, discuss them with the relevant stakeholders, identify priorities, plan feasible actions, seek required support and review progress in the next assessment cycle.

## 4. Indicator-wise Assessment Framework

### 4.1 Introduction

The indicator framework provides a consistent and measurable basis for assessing school-level enabling conditions through UDISE+ 2025-26 data. It covers physical access, digital readiness, infrastructure, selected NEP activities, inclusion, staffing and school leadership.

Each profile below retains the approved indicator title, applicability and maximum weightage. The explanatory text has been standardised to help readers understand what the indicator assesses, why it is included, its educational relevance, the desired position and a possible pathway for strengthening.

### 4.2 How to Read an Indicator Profile

| Profile field                       | Meaning                                                                 |
|-------------------------------------|-------------------------------------------------------------------------|
| Domain                              | The approved MSPGI domain.                                              |
| Maximum weightage                   | The maximum points assigned to the indicator.                           |
| What the indicator assesses         | A plain-language explanation of the UDISE+ parameter.                   |
| Why it is included                  | The rationale for including the indicator in MSPGI.                     |
| Educational relevance               | How the condition or practice supports school functioning and learners. |
| Desired position                    | The position towards which schools may progressively work.              |
| Suggested pathway for strengthening | Non-binding guidance on how the gap may be considered.                  |
| Relevant policy/programme context   | The principal public framework associated with the indicator.           |

#### Indicator 1: Availability of Lowest Class till Highest Class in school (All School)

|                                    |                                                                                                                                                                              |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Accessibility                                                                                                                                                                |
| <b>Maximum weightage</b>           | 30 points                                                                                                                                                                    |
| <b>What the indicator assesses</b> | This indicator records the range from the lowest class to the highest class available in the school, as reported in UDISE+.                                                  |
| <b>Why it is included</b>          | A wider and continuous range of classes can support smoother progression between school stages and reduce the need for children to change institutions at transition points. |
| <b>Educational relevance</b>       | Continuity across stages can improve accessibility, reduce disruption and support a more coherent educational pathway for learners.                                          |

|                                            |                                                                                                                                                                                                                                       |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Desired position</b>                    | The desired position is continuity from the lowest to the highest class appropriate to the institution, with stages organized under the applicable school and UDISE+ framework.                                                       |
| <b>Suggested pathway for strengthening</b> | Where different stages of the same institution operate under separate UDISE+ codes, the position may be reviewed under applicable Departmental norms to determine whether consolidation into a single functional unit is appropriate. |
| <b>Relevant policy/programme context</b>   | UDISE+ school profile and State-level school planning.                                                                                                                                                                                |

## Indicator 2: Whether school is approachable by all-weather Roads (All Schools)

|                                            |                                                                                                                                                                                                          |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Accessibility                                                                                                                                                                                            |
| <b>Maximum weightage</b>                   | 12 points                                                                                                                                                                                                |
| <b>What the indicator assesses</b>         | This indicator captures whether the school is connected by a motorable, all-weather road that remains usable throughout the year, including the monsoon season, as reported under UDISE+.                |
| <b>Why it is included</b>                  | Road connectivity directly affects daily attendance of students and teachers and the ability of the administration to monitor and support the school; hence it has been included in the MSPGI framework. |
| <b>Educational relevance</b>               | All-weather road connectivity ensures uninterrupted access to school, reduces dropout risk during adverse weather, and enables timely supply of learning materials, school meals and emergency support.  |
| <b>Desired position</b>                    | Every school should be connected by an all-weather, motorable road accessible in all seasons.                                                                                                            |
| <b>Suggested pathway for strengthening</b> | Schools without reliable all-weather access may be mapped and referred to the District Administration and the relevant road or convergence authorities for phased improvement.                           |
| <b>Relevant policy/programme context</b>   | RTE framework, Samagra Shiksha and access-related planning.                                                                                                                                              |

## Indicator 3: Whether school is having Pre-Primary Section (School having Primary section)

|                                    |                                                                                                                                                                                           |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Accessibility                                                                                                                                                                             |
| <b>Maximum weightage</b>           | 15 points                                                                                                                                                                                 |
| <b>What the indicator assesses</b> | This indicator assesses whether a school has a functional Pre-Primary (PP) section as reported under UDISE+.                                                                              |
| <b>Why it is included</b>          | Availability of Pre-Primary section within the school ensures early exposure to structured learning and smooth transition into Class I, and is therefore included in the MSPGI framework. |
| <b>Educational relevance</b>       | A functional pre-primary section supports school readiness and continuity into Class I within the Foundational Stage envisaged under NEP 2020.                                            |
| <b>Desired position</b>            | Every school with a primary section should, where applicable, have access to a functional pre-primary provision within or linked to the school.                                           |

|                                            |                                                                                                                                                                                                           |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suggested pathway for strengthening</b> | Schools with a primary section but without pre-primary provision may be considered for establishment or linkage of a functional pre-primary section, subject to approved norms and resource availability. |
| <b>Relevant policy/programme context</b>   | NEP 2020 Foundational Stage, NCF for the Foundational Stage and Samagra Shiksha.                                                                                                                          |

#### Indicator 4: Whether school is having Anganwadi Centre inside the school's premises (Govt. & Govt. Aided with Primary section)

|                                            |                                                                                                                                                                                      |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Accessibility                                                                                                                                                                        |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                            |
| <b>What the indicator assesses</b>         | This indicator assesses whether an Anganwadi Centre (AWC) is co-located within the school premises as reported under UDISE+.                                                         |
| <b>Why it is included</b>                  | Co-location of AWCs with schools strengthens the continuum of Early Childhood Care and Education (ECCE) to primary schooling and has therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>               | Co-location or effective linkage can support smoother transition from ECCE to formal schooling and strengthen convergence between Social Welfare and School Education.               |
| <b>Desired position</b>                    | Every school with a primary section should ideally have a co-located Anganwadi Centre or an effective linkage with the nearest AWC.                                                  |
| <b>Suggested pathway for strengthening</b> | Schools without a co-located Anganwadi Centre may be mapped to the nearest AWC and considered for convergence planning with the Department of Social Welfare.                        |
| <b>Relevant policy/programme context</b>   | NEP 2020 provisions on ECCE and convergence between school education and Anganwadi services.                                                                                         |

#### Indicator 5: Whether school is conducting Pre vocational Exposure in UP section only

|                                            |                                                                                                                                                                                                                                                         |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Accessibility                                                                                                                                                                                                                                           |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                                                                               |
| <b>What the indicator assesses</b>         | This indicator assesses whether Upper Primary (UP) students are provided pre-vocational exposure activities as part of the school curriculum, as reported under UDISE+.                                                                                 |
| <b>Why it is included</b>                  | Early exposure to vocational skills at the Upper Primary stage builds the foundation for informed subject/stream choices later and aligns with NEP 2020's emphasis on vocational education from Class VI onward; hence included in the MSPGI framework. |
| <b>Educational relevance</b>               | Pre-vocational exposure helps students develop practical skills, career awareness and readiness for skill-based learning pathways in Secondary and Senior Secondary classes.                                                                            |
| <b>Desired position</b>                    | Every school with an Upper Primary section should be conducting structured pre-vocational exposure activities for its students.                                                                                                                         |
| <b>Suggested pathway for strengthening</b> | Schools may be supported through teacher orientation, locally relevant activities and suitable resource material for structured pre-vocational exposure.                                                                                                |

|                                          |                                                                                   |
|------------------------------------------|-----------------------------------------------------------------------------------|
| <b>Relevant policy/programme context</b> | NEP 2020 and NCF-SE 2023 provisions on vocational exposure from the Middle Stage. |
|------------------------------------------|-----------------------------------------------------------------------------------|

### Indicator 6: Whether school is running Vocational Course under NSQF (Secondary & Hr. Secondary section only)

|                                            |                                                                                                                                                                                                    |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Accessibility                                                                                                                                                                                      |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                                          |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school is offering vocational courses aligned with the National Skills Qualification Framework (NSQF), as reported under UDISE+.                               |
| <b>Why it is included</b>                  | NSQF-aligned vocational courses provide certified, industry-linked skill training to students and are a key thrust area under NEP 2020 and Samagra Shiksha; hence included in the MSPGI framework. |
| <b>Educational relevance</b>               | NSQF courses enhance employability and provide alternate pathways for students, supporting the goal of vocational education of at least 50% of learners by 2030 as envisaged under NEP 2020.       |
| <b>Desired position</b>                    | Every eligible Secondary/Senior Secondary school should offer at least one NSQF-aligned vocational course relevant to local economic opportunities.                                                |
| <b>Suggested pathway for strengthening</b> | Eligible schools may be assessed for the introduction of locally relevant NSQF-aligned trades through the appropriate vocational education and skill-development channels.                         |
| <b>Relevant policy/programme context</b>   | NEP 2020, the National Skills Qualification Framework and Samagra Shiksha vocational education provisions.                                                                                         |

### Indicator 7: Whether school is having Smart classroom (All Schools)

|                                            |                                                                                                                                                                                                                                     |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Digital Education                                                                                                                                                                                                                   |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                                                                           |
| <b>What the indicator assesses</b>         | This indicator assesses the availability of at least one functional smart classroom (equipped with digital display/projector and connected teaching-learning content) in the school, as reported under UDISE+.                      |
| <b>Why it is included</b>                  | Smart classrooms enable technology-integrated pedagogy and improve conceptual clarity for students, and have therefore been included in the MSPGI framework.                                                                        |
| <b>Educational relevance</b>               | Smart-classroom facilities can support multimedia teaching, access to digital content and more varied classroom presentation when they are functional and used regularly.                                                           |
| <b>Desired position</b>                    | Every school should have at least one functional smart classroom accessible to all sections.                                                                                                                                        |
| <b>Suggested pathway for strengthening</b> | Schools may assess whether an existing room and available equipment can be used or upgraded. Where additional support is required, proposals may be taken up through approved Departmental, convergence, community or CSR channels. |

|                                          |                                                                                              |
|------------------------------------------|----------------------------------------------------------------------------------------------|
| <b>Relevant policy/programme context</b> | NEP 2020, PRAGYATA Guidelines for Digital Education and Samagra Shiksha digital initiatives. |
|------------------------------------------|----------------------------------------------------------------------------------------------|

### Indicator 8: Whether school is having Internet used for pedagogy (All Schools)

|                                            |                                                                                                                                                                                                                 |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Digital Education                                                                                                                                                                                               |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                                       |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has functional internet connectivity that is actively used for teaching-learning purposes, as reported under UDISE+.                                                 |
| <b>Why it is included</b>                  | Internet access for pedagogy enables use of digital content, online resources and remote learning support, and has therefore been included in the MSPGI framework.                                              |
| <b>Educational relevance</b>               | Internet-enabled pedagogy expands access to quality digital learning resources, supports teacher capacity building and enables continuity of learning during disruptions.                                       |
| <b>Desired position</b>                    | Every school should have functional internet connectivity that is actively used for classroom teaching and learning.                                                                                            |
| <b>Suggested pathway for strengthening</b> | Connectivity gaps may be mapped and addressed through available government connectivity programmes, private service providers, shared access arrangements or suitable offline digital resources, as applicable. |
| <b>Relevant policy/programme context</b>   | PRAGYATA Guidelines for Digital Education, DIKSHA/PM eVIDYA and Samagra Shiksha.                                                                                                                                |

### Indicator 9: Whether school is having ICT Lab (Upper Primary school and above)

|                                            |                                                                                                                                                                           |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Digital Education                                                                                                                                                         |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                 |
| <b>What the indicator assesses</b>         | This indicator assesses the availability of a functional Information and Communication Technology (ICT) Lab in the school, as reported under UDISE+.                      |
| <b>Why it is included</b>                  | ICT Labs provide students with hands-on exposure to computers and digital tools, and have therefore been included in the MSPGI framework.                                 |
| <b>Educational relevance</b>               | ICT Labs build digital literacy among students, support computer-aided learning and prepare learners for a technology-driven future workforce.                            |
| <b>Desired position</b>                    | Every Upper Primary and above school should have a functional ICT Lab with adequate working computers.                                                                    |
| <b>Suggested pathway for strengthening</b> | Schools without a functional ICT laboratory may be considered for phased provisioning, repair or upgrading through the appropriate Departmental and convergence channels. |
| <b>Relevant policy/programme context</b>   | NEP 2020 and Samagra Shiksha provisions for ICT and digital education.                                                                                                    |

### Indicator 10: % of Pucca building Block (All Schools)

|                                            |                                                                                                                                                                                       |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                               |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                             |
| <b>What the indicator assesses</b>         | This indicator measures the percentage of school building blocks that are of permanent (pucca) construction, as reported under UDISE+.                                                |
| <b>Why it is included</b>                  | Pucca construction ensures structural safety and durability of school infrastructure and has therefore been included in the MSPGI framework.                                          |
| <b>Educational relevance</b>               | Pucca construction provides safer, more durable and weather-resistant learning spaces, which is particularly relevant in Meghalaya's high-rainfall and seismically sensitive context. |
| <b>Desired position</b>                    | 100% of school building blocks should be of pucca construction.                                                                                                                       |
| <b>Suggested pathway for strengthening</b> | Kutchra or partially pucca blocks may be documented and prioritised in school and District infrastructure plans, subject to technical assessment and approved funding norms.          |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms, Samagra Shiksha and school safety guidance.                                                                                                          |

### Indicator 11: Whether school is having Solar Panel (All Schools)

|                                            |                                                                                                                                                                                                      |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                                              |
| <b>Maximum weightage</b>                   | 7 points                                                                                                                                                                                             |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has an installed and functional solar panel unit, as reported under UDISE+.                                                                               |
| <b>Why it is included</b>                  | Solar panels provide a reliable, sustainable power backup, particularly in areas with erratic electricity supply, and have therefore been included in the MSPGI framework.                           |
| <b>Educational relevance</b>               | Solar power can support continuity of lighting, digital equipment and essential services while also encouraging environmentally responsible practices.                                               |
| <b>Desired position</b>                    | Every school, particularly those in areas with unreliable grid electricity, should have a functional solar panel installation.                                                                       |
| <b>Suggested pathway for strengthening</b> | Schools may be assessed for the feasibility of solar power, particularly where grid supply is unreliable, and suitable proposals may be taken up through renewable-energy or convergence programmes. |
| <b>Relevant policy/programme context</b>   | Green-school and renewable-energy objectives under NEP-aligned and PM SHRI frameworks.                                                                                                               |

### Indicator 12: Whether school is having Library Room (All Schools)

|                                    |                                                                                                                                       |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Infrastructure facility                                                                                                               |
| <b>Maximum weightage</b>           | 30 points                                                                                                                             |
| <b>What the indicator assesses</b> | This indicator assesses whether the school has a dedicated, functional Library Room, as reported under UDISE+.                        |
| <b>Why it is included</b>          | A dedicated library space encourages reading habits and independent learning, and has therefore been included in the MSPGI framework. |

|                                            |                                                                                                                                                                                                                            |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Educational relevance</b>               | A functional library room supports literacy development, supplementary learning and access to reference material beyond textbooks.                                                                                         |
| <b>Desired position</b>                    | Every school should have a dedicated, functional Library Room stocked with age-appropriate books.                                                                                                                          |
| <b>Suggested pathway for strengthening</b> | Where a separate room is available, it may be designated and developed as a library. Where space is constrained, schools may identify a suitable shared or flexible reading space until a dedicated room becomes feasible. |
| <b>Relevant policy/programme context</b>   | NEP 2020 and Samagra Shiksha guidance on libraries and the promotion of reading.                                                                                                                                           |

### Indicator 13: Whether school is having Art and Craft Room (All Schools)

|                                            |                                                                                                                                                                                   |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                           |
| <b>Maximum weightage</b>                   | 27 points                                                                                                                                                                         |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a dedicated Art and Craft Room, as reported under UDISE+.                                                                          |
| <b>Why it is included</b>                  | A dedicated space for art and craft supports holistic development and co-curricular learning as envisaged under NEP 2020, and has therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>               | Art and craft activities support creativity, fine-motor development, expression and holistic learning.                                                                            |
| <b>Desired position</b>                    | Every school should have a dedicated Art and Craft Room equipped with basic material and supplies.                                                                                |
| <b>Suggested pathway for strengthening</b> | Schools may designate, adapt or share an appropriate space for art and craft activities and provide basic materials in a phased manner.                                           |
| <b>Relevant policy/programme context</b>   | NEP 2020 and NCF-SE 2023 emphasis on arts-integrated and holistic learning.                                                                                                       |

### Indicator 14: Whether school is having Functional CWSN Toilet (All Schools)

|                                            |                                                                                                                                                                                 |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                         |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                       |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a functional toilet accessible to Children with Special Needs (CWSN), as reported under UDISE+.                                  |
| <b>Why it is included</b>                  | Accessible sanitation facilities are essential for the inclusion and dignity of CWSN learners, and have therefore been included in the MSPGI framework.                         |
| <b>Educational relevance</b>               | CWSN-friendly toilets are a critical enabler of inclusive education, ensuring that children with disabilities can attend school with dignity and without barriers.              |
| <b>Desired position</b>                    | Every school should have at least one functional, accessible CWSN toilet.                                                                                                       |
| <b>Suggested pathway for strengthening</b> | Schools without a functional CWSN-accessible toilet may be prioritised for construction, repair or retrofitting in accordance with accessibility and inclusive-education norms. |

|                                          |                                                                                                               |
|------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| <b>Relevant policy/programme context</b> | Rights of Persons with Disabilities Act, 2016; Samagra Shiksha inclusive education; and school WASH guidance. |
|------------------------------------------|---------------------------------------------------------------------------------------------------------------|

### Indicator 15: Whether school is having Functional Drinking Water (All Schools)

|                                            |                                                                                                                                                                                            |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                                    |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                  |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a functional source of safe drinking water, as reported under UDISE+.                                                                       |
| <b>Why it is included</b>                  | Safe and functional drinking water is a basic necessity for student health and attendance, and has therefore been included in the MSPGI framework.                                         |
| <b>Educational relevance</b>               | Reliable access to safe drinking water supports health, hygiene, attendance and the overall functioning of the school.                                                                     |
| <b>Desired position</b>                    | Every school should have a functional source of safe drinking water available at all times.                                                                                                |
| <b>Suggested pathway for strengthening</b> | Non-functional or unavailable drinking-water facilities may be taken up on priority through school-level repair, Departmental support or convergence with PHED and other approved sources. |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms and Swachh Vidyalaya/WASH guidance.                                                                                                                        |

### Indicator 16: Whether school is having Functional Hand wash after meal (All Schools)

|                                            |                                                                                                                                                                        |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                              |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has functional handwashing facilities available for use after school meals, as reported under UDISE+.                       |
| <b>Why it is included</b>                  | Post-meal handwashing facilities are essential for maintaining hygiene and preventing illness among students, and have therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>               | Functional handwashing facilities after meals reduce the risk of water and food-borne illnesses and reinforce hygiene habits among children.                           |
| <b>Desired position</b>                    | Every school should have functional handwashing facilities with water and soap available near meal-serving areas.                                                      |
| <b>Suggested pathway for strengthening</b> | Schools may ensure that handwashing points near meal-serving areas have a regular water supply, soap and simple arrangements for maintenance and supervision.          |
| <b>Relevant policy/programme context</b>   | PM POSHAN and school WASH/hygiene guidance.                                                                                                                            |

### Indicator 17: Whether school is having Functional Hand wash near toilet (All Schools)

|               |                         |
|---------------|-------------------------|
| <b>Domain</b> | Infrastructure facility |
|---------------|-------------------------|

|                                            |                                                                                                                                                                           |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                 |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has functional handwashing facilities located near toilets, as reported under UDISE+.                                          |
| <b>Why it is included</b>                  | Handwashing facilities near toilets are essential for basic hygiene and disease prevention, and have therefore been included in the MSPGI framework.                      |
| <b>Educational relevance</b>               | Availability of handwashing facilities near toilets is a core component of WASH (Water, Sanitation and Hygiene) standards in schools and directly impacts student health. |
| <b>Desired position</b>                    | Every school should have functional handwashing facilities with water and soap available near all toilet blocks.                                                          |
| <b>Suggested pathway for strengthening</b> | Schools may provide or restore handwashing facilities close to toilet blocks and establish simple routines for water, soap, cleanliness and maintenance.                  |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms and Swachh Vidyalaya/WASH guidance.                                                                                                       |

### Indicator 18: Whether school is having Rain Water Harvesting (All Schools)

|                                            |                                                                                                                                                                                        |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                                |
| <b>Maximum weightage</b>                   | 18 points                                                                                                                                                                              |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a functional rainwater harvesting system, as reported under UDISE+.                                                                     |
| <b>Why it is included</b>                  | Given Meghalaya's high rainfall, rainwater harvesting supports water conservation and supplements drinking water availability, and has therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>               | Rainwater harvesting ensures sustainable water availability, reduces dependency on external water sources, and instils environmental consciousness among students.                     |
| <b>Desired position</b>                    | Every school should have a functional rainwater harvesting structure adequate for its water needs.                                                                                     |
| <b>Suggested pathway for strengthening</b> | Schools may assess suitable roof catchment, storage and drainage arrangements and take up rainwater harvesting in accordance with local conditions and technical advice.               |
| <b>Relevant policy/programme context</b>   | NEP 2020 environmental education and green-school practices.                                                                                                                           |

### Indicator 19: Whether school is having Library/Book Bank/Reading Corner facility (All Schools)

|                                    |                                                                                                                                                                    |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Infrastructure facility                                                                                                                                            |
| <b>Maximum weightage</b>           | 30 points                                                                                                                                                          |
| <b>What the indicator assesses</b> | This indicator assesses whether the school has any form of reading resource facility; a library, book bank, or reading corner as reported under UDISE+.            |
| <b>Why it is included</b>          | Availability of reading resources, in whichever form, promotes reading culture and supplementary learning, and has therefore been included in the MSPGI framework. |

|                                            |                                                                                                                                                                  |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Educational relevance</b>               | Reading resources beyond textbooks build literacy, comprehension and lifelong reading habits among students, especially at the Primary and Upper Primary stages. |
| <b>Desired position</b>                    | Every school should have at least a functional book bank or reading corner where a dedicated library room is not feasible.                                       |
| <b>Suggested pathway for strengthening</b> | Where a dedicated library is not feasible, schools may establish a book bank or age-appropriate reading corner using available space and reading materials.      |
| <b>Relevant policy/programme context</b>   | NEP 2020 and Samagra Shiksha guidance on reading resources and reading corners.                                                                                  |

## Indicator 20: Whether school is having Playground (All Schools)

|                                            |                                                                                                                                                                          |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                  |
| <b>Maximum weightage</b>                   | 12 points                                                                                                                                                                |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has an available playground for physical education and sports activities, as reported under UDISE+.                           |
| <b>Why it is included</b>                  | Playgrounds support physical development and co-curricular sports activities, and have therefore been included in the MSPGI framework.                                   |
| <b>Educational relevance</b>               | Access to a playground promotes physical fitness, teamwork and holistic development of students, in line with NEP 2020's emphasis on sports and physical education.      |
| <b>Desired position</b>                    | Every school should have access to an adequate playground, either within its own premises or through shared community facilities.                                        |
| <b>Suggested pathway for strengthening</b> | Schools without their own playground may assess available land, safe shared-use arrangements or access to suitable community facilities for organised physical activity. |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms and NEP 2020 emphasis on sports, health and physical education.                                                                          |

## Indicator 21: Whether school is having Ramps (All Schools)

|                                    |                                                                                                                                                                                     |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Infrastructure facility                                                                                                                                                             |
| <b>Maximum weightage</b>           | 30 points                                                                                                                                                                           |
| <b>What the indicator assesses</b> | This indicator assesses whether the school building has ramps providing accessible entry, as reported under UDISE+.                                                                 |
| <b>Why it is included</b>          | Ramps are a fundamental accessibility feature for students, staff and visitors with mobility challenges, and have therefore been included in the MSPGI framework.                   |
| <b>Educational relevance</b>       | Ramps ensure barrier-free access to school buildings for children with disabilities and are a mandatory requirement under the Rights of Persons with Disabilities (RPwD) Act, 2016. |
| <b>Desired position</b>            | Every school building block should have ramp access at all entry points.                                                                                                            |

|                                            |                                                                                                                                                                       |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suggested pathway for strengthening</b> | School entrances and movement routes may be reviewed and ramps may be constructed or retrofitted in accordance with barrier-free design and technical specifications. |
| <b>Relevant policy/programme context</b>   | Rights of Persons with Disabilities Act, 2016; barrier-free access guidance; and Samagra Shiksha inclusive education.                                                 |

## Indicator 22: Whether school is having Ramps with Handrail (All Schools)

|                                            |                                                                                                                                                                                    |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                            |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                          |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school's ramps are additionally fitted with handrails for safe usage, as reported under UDISE+.                                                |
| <b>Why it is included</b>                  | Handrails enhance the safety and usability of ramps for persons with mobility impairments, and have therefore been included in the MSPGI framework.                                |
| <b>Educational relevance</b>               | Ramps with handrails provide safe and dignified access for CWSN and other users, reducing the risk of falls and supporting full compliance with universal accessibility standards. |
| <b>Desired position</b>                    | Every ramp in the school should be fitted with sturdy handrails on at least one side.                                                                                              |
| <b>Suggested pathway for strengthening</b> | Existing ramps may be reviewed for safe gradient, surface and handrails; missing or inadequate handrails may be added through appropriate retrofitting.                            |
| <b>Relevant policy/programme context</b>   | Rights of Persons with Disabilities Act, 2016; barrier-free access guidance; and Samagra Shiksha inclusive education.                                                              |

## Indicator 23: Whether school is having Boundary Wall (All Schools)

|                                            |                                                                                                                                                                               |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                       |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                     |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school premises are secured with a boundary wall, as reported under UDISE+.                                                               |
| <b>Why it is included</b>                  | A boundary wall secures the school campus and ensures child safety, and has therefore been included in the MSPGI framework.                                                   |
| <b>Educational relevance</b>               | Boundary walls prevent unauthorized entry/exit, safeguard students from external hazards, and support overall campus security and asset protection.                           |
| <b>Desired position</b>                    | Every school should have a complete boundary wall enclosing its premises.                                                                                                     |
| <b>Suggested pathway for strengthening</b> | Schools without a complete boundary may assess the most appropriate solution—wall, fencing or other safe enclosure—based on site conditions, safety needs and approved norms. |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms and school safety guidance.                                                                                                                   |

## Indicator 24: Whether school is having Electricity connection (All Schools)

|                                            |                                                                                                                                                                                   |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                           |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                         |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a functional electricity connection, as reported under UDISE+.                                                                     |
| <b>Why it is included</b>                  | Electricity is a basic infrastructural requirement for lighting, digital equipment and overall functioning of the school, and has therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>               | A functional electricity connection is essential for operating smart classrooms, ICT labs, fans/lighting and other digital and safety equipment.                                  |
| <b>Desired position</b>                    | Every school should have a functional and continuous electricity connection.                                                                                                      |
| <b>Suggested pathway for strengthening</b> | Schools without reliable electricity may be considered for grid connection, repair of existing supply or an appropriate alternative such as solar power, subject to feasibility.  |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms, Samagra Shiksha and digital education requirements.                                                                                              |

### Indicator 25: Whether school is having functional Desktop/laptop (All Schools)

|                                            |                                                                                                                                                                                                 |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                                         |
| <b>Maximum weightage</b>                   | 12 points                                                                                                                                                                                       |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has at least one functional desktop or laptop computer, as reported under UDISE+.                                                                    |
| <b>Why it is included</b>                  | Availability of functional computing devices is a baseline requirement for digital education and administrative digitization, and has therefore been included in the MSPGI framework.           |
| <b>Educational relevance</b>               | Functional computers enable digital pedagogy, data entry (such as UDISE+ and APAAR), and administrative efficiency at the school level.                                                         |
| <b>Desired position</b>                    | Every school should have at least one functional desktop/laptop for academic and administrative use.                                                                                            |
| <b>Suggested pathway for strengthening</b> | Schools may first assess whether existing devices can be repaired and secured for shared academic and administrative use; additional devices may be proposed through approved support channels. |
| <b>Relevant policy/programme context</b>   | UDISE+ data processes, PRAGYATA and Samagra Shiksha digital education provisions.                                                                                                               |

### Indicator 26: Whether school is having Separate room for Headmaster (All Schools)

|                                    |                                                                                                                                   |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Infrastructure facility                                                                                                           |
| <b>Maximum weightage</b>           | 9 points                                                                                                                          |
| <b>What the indicator assesses</b> | This indicator assesses whether the school has a separate, dedicated room for the Headmaster/Principal, as reported under UDISE+. |

|                                            |                                                                                                                                                                                              |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Why it is included</b>                  | A dedicated administrative space supports effective school leadership and management functions, and has therefore been included in the MSPGI framework.                                      |
| <b>Educational relevance</b>               | A separate Headmaster's room enables confidential administrative work, record-keeping, and effective conduct of parent/stakeholder meetings, strengthening school governance.                |
| <b>Desired position</b>                    | Every school with adequate infrastructure should have a separate, functional room designated for the Headmaster/Principal.                                                                   |
| <b>Suggested pathway for strengthening</b> | Where a separate Headmaster's room is not presently available, schools may identify or adapt a suitable administrative space and include a dedicated room in future infrastructure planning. |
| <b>Relevant policy/programme context</b>   | School leadership, record management and administrative functioning under the school education framework.                                                                                    |

### Indicator 27: Whether school is having assistive tech-based solutions for CWSN (All Schools)

|                                            |                                                                                                                                                                                        |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                                |
| <b>Maximum weightage</b>                   | 27 points                                                                                                                                                                              |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has assistive technology-based solutions (such as aids and appliances) available for Children with Special Needs, as reported under UDISE+. |
| <b>Why it is included</b>                  | Assistive technology enables meaningful participation of CWSN in the learning process and has therefore been included in the MSPGI framework.                                          |
| <b>Educational relevance</b>               | Assistive tech-based solutions remove learning barriers for CWSN, enabling access to curriculum content and supporting the inclusive education mandate under the RPwD Act, 2016.       |
| <b>Desired position</b>                    | Every school enrolling CWSN students should have access to appropriate assistive technology aligned to the specific needs of enrolled children.                                        |
| <b>Suggested pathway for strengthening</b> | Assistive-technology needs may be assessed in relation to the requirements of enrolled children, followed by suitable provisioning, training and maintenance support.                  |
| <b>Relevant policy/programme context</b>   | Rights of Persons with Disabilities Act, 2016 and Samagra Shiksha inclusive education provisions.                                                                                      |

### Indicator 28: Whether school is having Functional Boy's Toilet (All Boys & Co-Ed Schools)

|                                    |                                                                                                                                                                        |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | Infrastructure facility                                                                                                                                                |
| <b>Maximum weightage</b>           | 36 points                                                                                                                                                              |
| <b>What the indicator assesses</b> | This indicator assesses whether the school has a functional, usable toilet facility for boys, as reported under UDISE+.                                                |
| <b>Why it is included</b>          | Functional sanitation facilities for boys are a basic infrastructural requirement mandated under the RTE Act, and have therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>       | Functional boys' toilets are essential for student health, hygiene and dignity, and directly influence school attendance and retention.                                |

|                                            |                                                                                                                                                                        |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Desired position</b>                    | Every school should have an adequate number of functional toilets for boys, in proportion to enrolment.                                                                |
| <b>Suggested pathway for strengthening</b> | Non-functional or unavailable boys' toilets may be taken up on priority for repair, water provision or construction in accordance with enrolment and applicable norms. |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms and Swachh Vidyalaya/WASH guidance.                                                                                                    |

### Indicator 29: Whether school is having Functional Girls' Toilet (All Girl & Co-Ed School)

|                                            |                                                                                                                                                                                                                                                                         |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                                                                                                                 |
| <b>Maximum weightage</b>                   | 45 points                                                                                                                                                                                                                                                               |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a functional, usable toilet facility for girls, as reported under UDISE+.                                                                                                                                                |
| <b>Why it is included</b>                  | Functional sanitation facilities for girls are critical for retention of girl students, particularly at the Upper Primary and Secondary stages, and have therefore been included in the MSPGI framework carrying the highest weightage among toilet-related indicators. |
| <b>Educational relevance</b>               | Functional girls' toilets directly influence girls' attendance, retention and dignity in school, and are a key determinant in reducing gender-based dropout.                                                                                                            |
| <b>Desired position</b>                    | Every school should have an adequate number of functional, private toilets for girls, in proportion to enrolment.                                                                                                                                                       |
| <b>Suggested pathway for strengthening</b> | Non-functional or unavailable girls' toilets may be taken up on priority for repair, privacy, water provision or construction in accordance with enrolment and applicable norms.                                                                                        |
| <b>Relevant policy/programme context</b>   | RTE school infrastructure norms and Swachh Vidyalaya/WASH guidance.                                                                                                                                                                                                     |

### Indicator 30: Whether school is having Integrated Science Lab (Secondary school Only)

|                                            |                                                                                                                                                                           |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                   |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                 |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a functional Integrated Science Laboratory, as reported under UDISE+.                                                      |
| <b>Why it is included</b>                  | Integrated Science Labs enable hands-on, experiential science learning at the Upper Primary/Secondary level and have therefore been included in the MSPGI framework.      |
| <b>Educational relevance</b>               | Integrated Science Labs strengthen conceptual understanding of science subjects through practical experimentation, supporting quality STEM education.                     |
| <b>Desired position</b>                    | Every Secondary school should have a functional Integrated Science Lab equipped with basic apparatus.                                                                     |
| <b>Suggested pathway for strengthening</b> | Secondary schools without a functional integrated science laboratory may be assessed for room availability, basic apparatus, safety requirements and phased provisioning. |

|                                          |                                                                                      |
|------------------------------------------|--------------------------------------------------------------------------------------|
| <b>Relevant policy/programme context</b> | NEP 2020, NCF-SE 2023 and Samagra Shiksha emphasis on experiential science learning. |
|------------------------------------------|--------------------------------------------------------------------------------------|

### Indicator 31: Whether school is having Separate Science Lab for Hr. Secondary (Science Stream)

|                                            |                                                                                                                                                                                  |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Infrastructure facility                                                                                                                                                          |
| <b>Maximum weightage</b>                   | 15 points                                                                                                                                                                        |
| <b>What the indicator assesses</b>         | This indicator assesses whether a Higher Secondary school offering the Science stream has separate and functional laboratory facilities, as reported in UDISE+.                  |
| <b>Why it is included</b>                  | Higher Secondary Science stream requires advanced practical infrastructure distinct from Secondary-level labs, and has therefore been included in the MSPGI framework.           |
| <b>Educational relevance</b>               | Appropriate laboratory facilities are essential for Physics, Chemistry and Biology practical work and for the effective delivery of the Higher Secondary Science curriculum.     |
| <b>Desired position</b>                    | Every Higher Secondary school offering the Science stream should have a separate, adequately equipped Science Laboratory.                                                        |
| <b>Suggested pathway for strengthening</b> | Higher Secondary schools offering the Science stream may assess subject-wise practical requirements and take up appropriate laboratory space, equipment and safety arrangements. |
| <b>Relevant policy/programme context</b>   | NEP 2020, NCF-SE 2023 and applicable academic/board requirements for practical science education.                                                                                |

### Indicator 32: Percentage of Student with Aadhaar (All Schools)

|                                            |                                                                                                                                                                                                                                      |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | NEP activity                                                                                                                                                                                                                         |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                                                            |
| <b>What the indicator assesses</b>         | This indicator measures the percentage of enrolled students in the school who have a valid Aadhaar number recorded in UDISE+.                                                                                                        |
| <b>Why it is included</b>                  | Aadhaar seeding of student records is essential for accurate identification, tracking and delivery of entitlements, and has therefore been included in the MSPGI framework.                                                          |
| <b>Educational relevance</b>               | Accurate student identity records support enrolment tracking and the delivery of approved entitlements and digital academic services.                                                                                                |
| <b>Desired position</b>                    | 100% of enrolled students should have their Aadhaar numbers recorded and verified in UDISE+.                                                                                                                                         |
| <b>Suggested pathway for strengthening</b> | Schools may review pending student records, support families through approved enrolment or correction processes and organise facilitation camps where required, while following applicable consent and data-protection requirements. |
| <b>Relevant policy/programme context</b>   | UDISE+ student records and approved identity-verification processes.                                                                                                                                                                 |

**Indicator 33: % of Teacher with Aadhaar (All schools)**

|                                            |                                                                                                                                                                                        |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | NEP activity                                                                                                                                                                           |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                              |
| <b>What the indicator assesses</b>         | This indicator measures the percentage of teachers in the school who have a valid Aadhaar number recorded in UDISE+.                                                                   |
| <b>Why it is included</b>                  | Aadhaar seeding of teacher records supports accurate teacher tracking, deployment planning and service delivery, and has therefore been included in the MSPGI framework.               |
| <b>Educational relevance</b>               | Accurate teacher identity records support reliable staffing information, deployment planning and administrative processes.                                                             |
| <b>Desired position</b>                    | 100% of teachers should have their Aadhaar numbers recorded and verified in UDISE+.                                                                                                    |
| <b>Suggested pathway for strengthening</b> | Schools may review and update pending teacher identity details through the authorised UDISE+ process, with correction support from the relevant administrative authority where needed. |
| <b>Relevant policy/programme context</b>   | UDISE+ teacher records and approved identity-verification processes.                                                                                                                   |

**Indicator 34: Whether Medical Checkup has conducted in school (All Schools)**

|                                            |                                                                                                                                                                                             |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | NEP activity                                                                                                                                                                                |
| <b>Maximum weightage</b>                   | 24 points                                                                                                                                                                                   |
| <b>What the indicator assesses</b>         | This indicator assesses whether periodic medical checkups have been conducted for students in the school, as reported under UDISE+.                                                         |
| <b>Why it is included</b>                  | Regular health screening supports early detection of health issues affecting learning, and has therefore been included in the MSPGI framework.                                              |
| <b>Educational relevance</b>               | School-based medical checkups support early identification of nutritional deficiencies, vision/hearing impairments and other health concerns, thereby improving overall learning readiness. |
| <b>Desired position</b>                    | Every school should facilitate periodic medical screening of enrolled students in coordination with the competent health authorities.                                                       |
| <b>Suggested pathway for strengthening</b> | Schools may coordinate with the Health Department or RBSK teams to schedule periodic health screening and maintain the required school-level records.                                       |
| <b>Relevant policy/programme context</b>   | Rashtriya Bal Swasthya Karyakram and school health convergence.                                                                                                                             |

**Indicator 35: Whether school is having Kitchen Garden (All Schools)**

|                                    |                                                                                                             |
|------------------------------------|-------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | NEP activity                                                                                                |
| <b>Maximum weightage</b>           | 30 points                                                                                                   |
| <b>What the indicator assesses</b> | This indicator assesses whether the school maintains a functional kitchen garden, as reported under UDISE+. |

|                                            |                                                                                                                                                                                                                        |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Why it is included</b>                  | Kitchen gardens support experiential learning, nutrition supplementation and environmental awareness, exposure to Vocational Education, and have therefore been included in the MSPGI framework.                       |
| <b>Educational relevance</b>               | Kitchen gardens provide hands-on learning in agriculture and nutrition, supplement mid-day meal ingredients, and instill sustainable practices among students, in line with NEP 2020's experiential learning approach. |
| <b>Desired position</b>                    | Every school with available land should maintain a functional kitchen garden.                                                                                                                                          |
| <b>Suggested pathway for strengthening</b> | Schools with suitable space may establish a small kitchen or nutrition garden and link it with experiential learning, environmental activities and PM POSHAN objectives.                                               |
| <b>Relevant policy/programme context</b>   | PM POSHAN guidance on school nutrition gardens and NEP 2020 experiential learning.                                                                                                                                     |

### Indicator 36: Whether School implemented CCE (All Schools)

|                                            |                                                                                                                                                                                 |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | NEP activity                                                                                                                                                                    |
| <b>Maximum weightage</b>                   | 12 points                                                                                                                                                                       |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has implemented Continuous and Comprehensive Evaluation (CCE) as part of its assessment practices, as reported under UDISE+.         |
| <b>Why it is included</b>                  | CCE promotes holistic, ongoing assessment of student learning beyond terminal examinations, and has therefore been included in the MSPGI framework.                             |
| <b>Educational relevance</b>               | CCE enables early identification of learning gaps, reduces examination-related stress, and supports competency-based, formative assessment as envisaged under NEP 2020 and NCF. |
| <b>Desired position</b>                    | Every school should have fully implemented Continuous and Comprehensive Evaluation across all applicable classes.                                                               |
| <b>Suggested pathway for strengthening</b> | Schools may be supported through teacher orientation, assessment exemplars and simple classroom tools for the consistent implementation of CCE and formative assessment.        |
| <b>Relevant policy/programme context</b>   | NEP 2020 and NCF-SE 2023 emphasis on competency-based and formative assessment.                                                                                                 |

### Indicator 37: Whether Safety Audit has been conducted (structural and non-structural) (All schools)

|                                    |                                                                                                                                                                         |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | NEP activity                                                                                                                                                            |
| <b>Maximum weightage</b>           | 21 points                                                                                                                                                               |
| <b>What the indicator assesses</b> | This indicator assesses whether a structural and non-structural safety audit of the school building and premises has been conducted, as reported under UDISE+.          |
| <b>Why it is included</b>          | Safety audits identify structural vulnerabilities and non-structural hazards, safeguarding students and staff, and have therefore been included in the MSPGI framework. |

|                                            |                                                                                                                                                                                 |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Educational relevance</b>               | Regular safety audits are critical in a seismically active state like Meghalaya, helping prevent disasters and ensuring the school environment is secure for all stakeholders.  |
| <b>Desired position</b>                    | Every school should undergo a periodic structural and non-structural safety audit conducted by competent authorities/engineers.                                                 |
| <b>Suggested pathway for strengthening</b> | Schools without an updated structural and non-structural safety audit may be mapped and referred to the competent technical and disaster-management authorities for assessment. |
| <b>Relevant policy/programme context</b>   | Guidelines on School Safety and Security and disaster-management/safety-audit practices.                                                                                        |

### Indicator 38: % of Student having APAAR ID (All schools)

|                                            |                                                                                                                                                                                               |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | NEP activity                                                                                                                                                                                  |
| <b>Maximum weightage</b>                   | 21 points                                                                                                                                                                                     |
| <b>What the indicator assesses</b>         | This indicator measures the percentage of enrolled students who have been issued an Automated Permanent Academic Account Registry (APAAR) ID, as reported under UDISE+.                       |
| <b>Why it is included</b>                  | APAAR ID enables a unique, lifelong academic identity for every student under the 'One Nation One Student ID' initiative of NEP 2020, and has therefore been included in the MSPGI framework. |
| <b>Educational relevance</b>               | APAAR provides a lifelong academic identity intended to support the secure organisation and portability of academic records across the education system.                                      |
| <b>Desired position</b>                    | 100% of enrolled students should be issued a verified APAAR ID.                                                                                                                               |
| <b>Suggested pathway for strengthening</b> | Schools may review pending APAAR cases, facilitate parent or guardian awareness and consent as applicable, and complete authorised data verification and updating processes.                  |
| <b>Relevant policy/programme context</b>   | APAAR, NEP 2020 and approved consent and data-verification processes.                                                                                                                         |

### Indicator 39: Whether school constituted Youth & Eco Club (All Schools)

|                                    |                                                                                                                                                                      |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                      | NEP activity                                                                                                                                                         |
| <b>Maximum weightage</b>           | 18 points                                                                                                                                                            |
| <b>What the indicator assesses</b> | This indicator assesses whether the school has constituted a functional Youth and Eco Club, as reported under UDISE+.                                                |
| <b>Why it is included</b>          | Youth and Eco Clubs promote student leadership, civic engagement and environmental awareness, and have therefore been included in the MSPGI framework.               |
| <b>Educational relevance</b>       | Youth and Eco Clubs build life skills, environmental consciousness and community participation among students, supporting holistic development goals under NEP 2020. |
| <b>Desired position</b>            | Every school should have a functional Youth and Eco Club with regular activities and student participation.                                                          |

|                                            |                                                                                                                                                      |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suggested pathway for strengthening</b> | Schools may constitute or reactivate Youth and Eco Clubs, nominate responsible teachers and plan a small calendar of regular student-led activities. |
| <b>Relevant policy/programme context</b>   | Samagra Shiksha guidance on Youth and Eco Clubs and NEP 2020 holistic development.                                                                   |

#### Indicator 40: Pupil Teacher Ratio (All Schools)

|                                            |                                                                                                                                                                                                     |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Quality                                                                                                                                                                                             |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                           |
| <b>What the indicator assesses</b>         | This indicator measures the Pupil Teacher Ratio (PTR), i.e., the number of students per teacher in the school, as reported under UDISE+.                                                            |
| <b>Why it is included</b>                  | PTR is a key determinant of individual attention and quality of instruction available to each student, and has therefore been included in the MSPGI framework.                                      |
| <b>Educational relevance</b>               | An optimal PTR ensures adequate teacher attention per student, directly influencing learning outcomes, classroom management and overall quality of education.                                       |
| <b>Desired position</b>                    | Every school should maintain PTR within the norms prescribed under the RTE Act (e.g., 30:1 at Primary and 35:1 at Upper Primary level) and 30:1 at Secondary and Hr. Secondary as per Samagra Norm. |
| <b>Suggested pathway for strengthening</b> | Schools with an adverse PTR may be considered during teacher deployment, rationalisation and recruitment planning in accordance with applicable norms.                                              |
| <b>Relevant policy/programme context</b>   | RTE pupil-teacher norms for the elementary stage and applicable Samagra Shiksha norms.                                                                                                              |

#### Indicator 41: Whether school is having at least one teacher trained for teaching CWSN (All schools)

|                                            |                                                                                                                                                                                                |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Quality                                                                                                                                                                                        |
| <b>Maximum weightage</b>                   | 24 points                                                                                                                                                                                      |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has at least one teacher trained in inclusive/special education for teaching Children with Special Needs, as reported under UDISE+.                 |
| <b>Why it is included</b>                  | Trained teachers are essential for delivering appropriate pedagogical support to CWSN learners, and have therefore been included in the MSPGI framework.                                       |
| <b>Educational relevance</b>               | Availability of a CWSN-trained teacher ensures that children with disabilities receive appropriate instructional support, furthering the goal of inclusive education under the RPwD Act, 2016. |
| <b>Desired position</b>                    | Every school, particularly those with enrolled CWSN students, should have at least one teacher trained in inclusive/special education.                                                         |
| <b>Suggested pathway for strengthening</b> | Schools without a teacher trained in inclusive education may be prioritised for recognised orientation or capacity-building programmes and supported by relevant resource persons.             |

|                                          |                                                                                                   |
|------------------------------------------|---------------------------------------------------------------------------------------------------|
| <b>Relevant policy/programme context</b> | Rights of Persons with Disabilities Act, 2016 and Samagra Shiksha inclusive education provisions. |
|------------------------------------------|---------------------------------------------------------------------------------------------------|

#### Indicator 42: Whether school is having Principal/Head Master (All Schools)

|                                            |                                                                                                                                                                                                    |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Quality                                                                                                                                                                                            |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                          |
| <b>What the indicator assesses</b>         | This indicator assesses whether the school has a regularly posted Principal/Headmaster, as reported under UDISE+.                                                                                  |
| <b>Why it is included</b>                  | Dedicated school leadership is essential for effective academic and administrative management, and has therefore been included in the MSPGI framework.                                             |
| <b>Educational relevance</b>               | A dedicated Principal/Headmaster ensures accountable school leadership, effective implementation of academic programmes, and improved coordination with the Department and community stakeholders. |
| <b>Desired position</b>                    | Every school should have a regularly posted, full-time Principal/Headmaster.                                                                                                                       |
| <b>Suggested pathway for strengthening</b> | Vacant or additional-charge headship positions may be reviewed in the appropriate deployment, promotion or appointment process, subject to applicable service rules.                               |
| <b>Relevant policy/programme context</b>   | School leadership and staffing provisions under the applicable education framework.                                                                                                                |

#### Indicator 43: % of Teacher with professional qualification (All Schools)

|                                            |                                                                                                                                                                                                                  |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Domain</b>                              | Quality                                                                                                                                                                                                          |
| <b>Maximum weightage</b>                   | 30 points                                                                                                                                                                                                        |
| <b>What the indicator assesses</b>         | This indicator measures the percentage of teachers holding the professional qualification applicable to their stage and post, as reported in UDISE+.                                                             |
| <b>Why it is included</b>                  | Professional preparation equips teachers with pedagogical knowledge and competencies and is therefore included in the MSPGI framework.                                                                           |
| <b>Educational relevance</b>               | Appropriate professional qualifications support effective teaching, assessment, classroom management and the continuing development of the teaching workforce.                                                   |
| <b>Desired position</b>                    | 100% of teachers in the school should hold the requisite professional teaching qualification as per RTE/NCTE norms.                                                                                              |
| <b>Suggested pathway for strengthening</b> | Teachers who do not yet hold the applicable professional qualification may be guided towards recognised in-service or approved qualification pathways, subject to the relevant norms and eligibility conditions. |
| <b>Relevant policy/programme context</b>   | RTE and NCTE teacher-qualification norms and NEP 2020 emphasis on professional capacity.                                                                                                                         |

## 5. Top 100 Schools in Meghalaya

### 5.1 Introduction

The MSPGI 2025-26 assesses every school in the State across 43 indicators in five domains, with a maximum composite score of 1,000 points. On the basis of the approved weighted scores for all 11,443 schools covered under UDISE+, the top 100 schools across management types are presented in this chapter.

The highest-scoring school in the list secured 930 points, while the school ranked 100th secured 768 points. The source report records 74 Private schools and 26 Government-sector schools in the top 100.

The source report further notes that East Khasi Hills accounts for 48 schools in the top 100, followed by Ri Bhoi with 16 and West Garo Hills with 9. The remaining schools are distributed across other Districts represented in the table.

The ranking is presented to recognize schools that have recorded higher fulfilment across the approved MSPGI indicators and to provide reference points for peer learning and continuous improvement.

Table 5.1. Top 100 Schools in Meghalaya as per MSPGI 2025-26 (All Management Types)

| Rank | UDISE Code  | School Name                                             | District           | Management | Score |

## 6. Top 100 Government Schools in Meghalaya

### 6.1 Introduction

Of the 11,443 schools assessed under MSPGI 2025-26, the source report identifies 5,601 schools under the Department of Education, SSA, KGBV, EMRS and MeECL categories. This chapter presents the top 100 schools within the Government and related public-school management categories on the basis of the approved composite score.

The highest-scoring school in this category secured 921 points, while the school ranked 100th secured 682 points. The table also includes PM SHRI schools and other Government-sector management types as classified in the source report.

The source report records East Khasi Hills with 38 schools in the Government top-100 list, followed by Ri Bhoi with 12 and West Garo Hills with 11, together with representation from several other Districts.

The category-specific list is intended to recognise performance within the public-school system and provide reference institutions for the sharing of practices and experience.

## 7. Top 100 Private Schools in Meghalaya

### 7.1 Introduction

The source report records 5,842 Private schools, including aided and unaided institutions, among the schools assessed under MSPGI 2025-26. This chapter presents the top 100 schools within the Private management category on the basis of the approved composite score.

The highest-scoring Private school secured 930 points, while the school ranked 100th secured 752 points. The list reflects the relative position of schools under the approved indicators and the management classification reproduced in the source report.

The source report records 50 schools from East Khasi Hills in the Private top-100 list, followed by 18 from Ri Bhoi and 7 each from West Garo Hills and East Jaintia Hills, together with representation from other Districts.

The category-specific list provides a reference for recognising performance within the Private-school sector and for sharing practices that may be relevant to the wider school system.

## 10. Meghalaya School Report Card (MSRC) 2025-26

### 10.1 Purpose of the School Report Card

A School Report Card has been generated for each of the 11,443 schools assessed across the State. The Meghalaya School Report Card translates the school's MSPGI results into a concise and standardized format that allows the school to view its institutional profile at a glance.

As described in the source report, the Report Card includes school identification details, the overall MSPGI score and grade, ranking information, the five domain scores and an indicator-wise summary across the approved framework.

#### How to Read the Meghalaya School Report Card

### 10.2 Generation and Access

The source report states that Report Cards have been generated programmatically from the underlying UDISE+ and MSPGI dataset to support accuracy and uniformity. They are intended to be available as downloadable, print-ready documents through the Departmental dissemination channel.

**Access link:** [https://ssa.megeducation.gov.in/MSPGI/MSRC\\_2025-26.html](https://ssa.megeducation.gov.in/MSPGI/MSRC_2025-26.html)

### 10.3 Suggested Questions for School and SMC Discussion

Which domains and indicators are recorded as the school's strongest areas?

Which gaps can be addressed through school-level organisation, maintenance or updating?

Which matters require support from the Block, District, State or another Department?

Are any reported details in UDISE+ in need of verification or updating through the authorised process?

Which actions are most important for safety, inclusion, WASH and regular school functioning?

How can progress be reviewed before the next MSPGI cycle?

## 10.4 Way Forward

The Department intends to issue the School Report Card annually alongside each MSPGI cycle so that schools can review progress over time against the approved indicators. The Report Card may also serve as a reference during school inspections, cluster reviews, SMC discussions and planning exercises under Samagra Shiksha and related programmes.

The continuing value of the MSPGI will lie in using the assessment as a practical reference for understanding institutional conditions, facilitating support and encouraging steady improvement across schools and Districts.

## CONCLUSION

The MSPGI 2025-26 establishes a common school-level framework across Meghalaya through five domains, 43 indicators and a 1,000-point grading structure. It brings together information that is otherwise dispersed across several institutional and administrative areas and presents it in a form that can be read at school, District and State levels.

The report's principal contribution is the creation of a shared reference for discussing school accessibility, digital readiness, infrastructure, selected NEP activities and quality-related enabling conditions. Its usefulness will be strengthened when scores and rankings are read alongside the detailed indicator profile and the specific context of each school.

The publication should therefore be understood as both an assessment and a planning aid. Its role is to help schools recognise strengths, identify areas requiring attention, seek appropriate support and review progress over successive cycles.

By retaining the authenticity of the approved data and methodology while improving clarity and presentation, this edition is intended to make the MSPGI more accessible to the readers who will use it for school improvement and educational planning.

## FREQUENTLY ASKED QUESTIONS

### What is the MSPGI?

The Meghalaya School Performance Grading Index is a school-level assessment framework that uses the approved UDISE+ 2025-26 indicators to generate a composite score, grade and ranking information for each school included in the exercise.

### What is the data source for the assessment?

The report states that the MSPGI is generated from UDISE+ 2025-26 data filled, and certified by schools.

### How many domains and indicators are used?

The approved framework contains five domains and 43 indicators, with a maximum composite score of 1,000 points.

### What does the MSPGI score represent?

The score represents the extent to which a school meets the approved indicators applicable to its category under this framework.

### How is the grade assigned?

The school's final score is matched to the approved 17-level grading framework reproduced in Chapter 3.

### How are indicators that are not applicable treated?

The report states that the weight of an indicator that is not applicable to a particular school category is proportionately redistributed among the applicable indicators.

### Why are schools ranked?

The report explains that ranking is intended to help locate a school's standing within the approved assessment and to encourage improvement; the primary purpose remains school development rather than competition.

### Does the MSPGI replace school inspection or academic assessment?

No. The MSPGI provides an institutional profile against the approved indicators. It is intended to complement school inspection, academic review, classroom observation and other educational assessments.

### How can a school use its Report Card?

A school may review its overall score, grade, domain profile and indicator status, discuss the results with staff and the SMC and identify matters that can be addressed or referred for support.

### Where can a school access its Report Card?

The report provides the Departmental access link:

## GLOSSARY

| Term                                   | Meaning                                                                                                                                                 |
|----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Composite score</b>                 | The total weighted MSPGI score obtained by a school, expressed out of 1,000 points.                                                                     |
| <b>Domain</b>                          | A broad area of assessment under which related indicators are grouped.                                                                                  |
| <b>Grade</b>                           | The performance band assigned to a school on the basis of its approved score range.                                                                     |
| <b>Indicator</b>                       | A defined, measurable parameter used in the MSPGI assessment.                                                                                           |
| <b>Not applicable (N/A)</b>            | An indicator that does not apply to a particular school category under the approved framework.                                                          |
| <b>Performance Grading Index (PGI)</b> | The national framework used to assess the performance of States and Union Territories in school education.                                              |
| <b>School Report Card</b>              | The individual school-level summary generated from the MSPGI assessment.                                                                                |
| <b>UDISE+</b>                          | The Unified District Information System for Education Plus, the national education management information system used as the data source for the MSPGI. |
| <b>Accessibility</b>                   | The MSPGI domain covering continuity of classes, physical approach and selected provisions that support access and progression.                         |
| <b>Digital Education</b>               | The domain covering smart classrooms, pedagogical internet use and ICT laboratories.                                                                    |
| <b>Infrastructure Facilities</b>       | The domain covering school buildings, WASH, accessibility, learning spaces, laboratories, electricity and related facilities.                           |
| <b>NEP Activities</b>                  | The domain covering selected activities and administrative processes associated with NEP-aligned implementation.                                        |
| <b>Quality Parameters</b>              | The domain covering PTR, inclusive-education capacity, school leadership and teacher professional qualifications.                                       |
| <b>CWSN</b>                            | Children with Special Needs, as used in the report and relevant education programmes.                                                                   |
| <b>PTR</b>                             | Pupil-Teacher Ratio: the number of pupils in relation to the number of teachers.                                                                        |
| <b>APAAR</b>                           | Automated Permanent Academic Account Registry, a lifelong academic identity for learners under the approved national initiative.                        |
| <b>CCE</b>                             | Continuous and Comprehensive Evaluation, an approach to ongoing and broad-based assessment of student learning.                                         |
| <b>NSQF</b>                            | National Skills Qualification Framework, which organises qualifications according to levels of knowledge, skills and aptitude.                          |
| <b>WASH</b>                            | Water, Sanitation and Hygiene facilities and practices in schools.                                                                                      |
| <b>SMC</b>                             | School Management Committee.                                                                                                                            |
